

Average Measures:

◆ Average Age

Average Age = AVERAGE(lego_sets[agerange_min])

💡 *Calculates the average minimum age requirement for LEGO sets.*

◆ Average Pieces

Average Pieces = AVERAGE(lego_sets[pieces])

💡 *Finds the average number of LEGO pieces per set.*

◆ Average Price

Average Price = AVERAGE(lego_sets[US_retailPrice])

💡 *Determines the average retail price of LEGO sets in USD.*

Theme Details Measures:

◆ Theme Groups Count

Theme Groups = DISTINCTCOUNT(lego_sets[themeGroup])

💡 *Counts the number of unique LEGO theme groups.*

◆ Total LEGO Sets

Total Sets = DISTINCTCOUNT(lego_sets[set_id])

💡 *Counts the total number of distinct LEGO sets available.*
